

Steven Easton

Steven Easton is a director of Easton Group a family business with investments across three divisions: Easton Property, Easton Housing and Easton Capital.

The portfolio includes residential and commercial properties, care homes, whisky distilleries, and children's fashion, and Steven is responsible for the overall performance of the business, with a particular focus on strategic growth and finance. Steven is also Co-founder and Chairman of Green Home Systems, an energy efficiency company based in Irvine that operates throughout Scotland and England.

Green Home Systems install thermal insulation, smart heating systems, renewable technologies, and electric vehicle charge points in domestic housing, helping fuel poor households to achieve bill savings and corporate clients to reduce their carbon emissions.
